PCD CHIP BREAKER »IC-PLUS« WORLD'S BEST – PROCESS RELIABLE TURNING OF ALUMINUM ALLOYS

Today, in 2020, it is no longer a secret that with the development of polycrystalline chip breakers, which started almost 25 years ago, LACH DIAMOND has accomplished a pioneering feat which ultimately came to perfection in the type »IC-plus« world's best. Attributes such as "a quantum leap" for the process reliable turning of aluminum alloys describe the worldwide success of these PCD cutting tools holding several patents in all industrial countries. The PCD chip breaker »IC-plus« world's best guarantees the process reliable turning of aluminum: from chip breaker to integrated chip grooves, chip control without fear of damaging the surface finish achieved. These are some of the secrets of success of the »IC-plus« world's best chip breaker. **Contact: www.lach-diamond.com**
