SUPERABRASIVE INDUSTRY REVIEW

THE CONTINUOUS FULL-LED REAR LIGHT OF THE NEW POLESTAR 2, AN INNOVATION MANUFACTURED WITH LACH DIAMOND PRECISION TOOLS

The electric car manufacturer Polestar gives his new classic limousine Polestar 2 a highly modern appearance: The specially designed C-shaped rear light runs across the entire width of the vehicle with a narrow light band. The development and series production of these highly integrated continuous rear lights consisting of light and electronic components has been made possible by LACH DIAMANT high-precision tools. The globally operating enterprise is equally in demand in traditional and future-oriented industries for the processing of advanced composite materials. **For more information visit: www.lach-diamond.com**
